Maximum comfort with latest safety technology

Lindstrands modern garment technologies ensure a high level of comfort and protection for even the most demanding riders. Latest safety technology, unbeatable features and highest quality guarantee the best riding experience even in the most challenging conditions and the unique price-quality ratio of the products is definitely the best on the market! Lindstrands All Weather Technology TRANSTRAND jacket and BERGA pants for men and GRANBERG jacket and HUSOM pants for women will allow you to enjoy riding in any weather.

The All Weather Technology **TRANSTRAND / GRANBERG jackets** and **BERGA / HUSOM pants** are all water and windproof and have been developed to use even in most demanding conditions. To ensure optimal protection and comfort Lindstrands only use the highest quality membranes. The multifunctional adventure style riding jacket and pants both have 2-layer laminated Dryway membrane that keeps you dry even in the wettest and windiest weather. The Dryway membrane allows moisture vapor to escape from the inside while keeping wind and rain out. The jackets have double the outer material on shoulders and elbows that maximises durability and an open back for increased ventilation plus a long connection zipper to the pants. In addition to the top technical features and membranes, the products represent great value for money that you won't find anywhere else.

Wind and waterproof **BERGA pants** for men and **HUSOM pants** for women matches perfectly to the TRANSTRAND and GRANBERG jackets. Modern design with practical thigh pockets and timeless black colour will be easy to combine with almost any jacket. The pants have double the outer material on hips, knees and seat that makes them very durable. Air vents on legs increase riding comfort.

Safety through comfort has always been the most important part of the product development of Lindstrands motorcycling garments throughout the brand's history. The more comfortable the clothes feel the better the rider can focus on the essential - riding! **TRANSTRAND / GRANBERG jackets** and **BERGA / HUSOM pants** are all CE certified and have achieved AA class according to the EU standard EN 17092 for protective clothing for motorcyclists. The products also include our certified level 1 protectors that have stepless adjustability that makes them fit perfectly for everyone. Jackets can also be supplemented with back protection.

Lindstrands offers an extensive range of motorcycling garments and accessories. With modern details and sporty appearance, the design is focused on riders who wish to push the limits without compromising on safety and performance. Established in 1891 in Malung, Sweden, Lindstrands began making boots for motorcycle riders back in the 1950s. Through the years Lindstrands has evolved into a strong brand whose collection represents the latest technology, innovative and high-quality textiles combined with stylish urban look. As they say, “If it works in Scandinavia...” For further detailed information on the products and a shop locator please visit: lindstrandsmc.com
